PRODUCT DESCRIPTION

The Aspire elevating leg rest are available for lightweight wheelchairs only. The leg rest is designed to elevate the users leg and keep them straight. Tool free height and angle adjustment to provide comfort for the user. Has a quick release and swing away movement to assist in patient transfers on and off the wheelchair.

Left and Right elevating leg rest supports available.

Suitable for wheelchair models: Aspire Evoke & Aspire Assist 2. Please note these will not fit the Aspire Assist 3 model.

Please note- not all sizes may be kept in stock and sometimes there is a small dispatch delay of 1-2 weeks.
