PRODUCT DESCRIPTION

The Automatic Bottle Opener by One Touch has been specifically designed to help open bottle lids with a single touch of the button, making this everyday task a breeze. Ideal for those with minimal to

limited finger, hand and arm strength or who suffer from arthritis.

The One Touch Bottle Opener will remove the lid of a soft drink or water bottle up to 55mm in diameter with a single touch of the button. Once pressed, the jaws automatically adjust to the size of the bottle top, cracking open the top and automatically stopping once completed.

The Automatic Can Opener requires 2 x AA batteries (batteries not included) and come with a 1 year warranty.
