12 months

PRODUCT DESCRIPTION

The Cura1 Dual Fold Floor Mat offers a simple and affordable solution for fall prevention in aged care, hospitals, or home care. It’s designed to work with the Economy Falls Monitor, helping carers respond quickly when someone is at risk of falling.

This durable floor mat is made from heavy-duty, non-slip material. Because of its low-profile edges, it greatly reduces the chance of someone tripping. Its foldable design also makes it easy to store or move between rooms.

In busy care environments, hygiene and ease of use are essential. That’s why this mat is also easy to clean and maintain. Most importantly, it provides reliable protection with minimal false alarms, giving you peace of mind.

Why Choose the Cura1 Dual Fold Floor Mat?

- **Fall Prevention Made Easy:** Works seamlessly with the **Economy Falls Monitor** for dependable alerts.
- **Compact and Portable:** Dual-fold design allows for easy transport and space-saving storage.
- **Safe and Stable:** Built with durable, non-slip material to prevent movement.
- **Low-Profile Edges:** Reduces the risk of tripping, unlike bulky mats.
- **Simple to Clean:** Quickly wipe down to maintain hygiene.
- **Trusted Performance:** Proven to reduce false alarms over time.
- **Great Value:** Cost-effective safety without compromising quality.

How the Cura1 Floor Mat Helps

When placed next to a bed or in a hallway, this mat detects pressure. Once someone steps on it, it triggers the **Economy Falls Monitor** (sold separately) to alert carers. This helps prevent accidents before they happen.
