12 months

PRODUCT DESCRIPTION

CURA1 4114 FOLDABLE CRASH MAT WITH SENSOR – RELIABLE FALL PROTECTION FOR HOME & CARE SETTINGS

The Cura1 4114 Foldable Crash Mat with Sensor provides a practical, affordable way to reduce injury risk from bedside falls. Perfect for elderly individuals, mobility-challenged users, or anyone at risk of falling, this crash mat is designed for home care, aged care facilities, and hospitals.

When connected to the Cura1 Economy Falls Monitor (requires 4151 Break Cord), the mat's integrated sensor delivers precise fall detection while minimising false alarms. Caregivers receive immediate alerts, enabling a faster response to potential incidents.

KEY FEATURES OF THE CURA1 4114 CRASH MAT

- **Integrated Sensor:** Ensures reliable and accurate fall detection.
- **Low-Profile Design:** Minimises trip hazards while remaining easy to navigate around the bed.
- **Durable & Latex-Free:** Built with long-lasting materials safe for sensitive users.
- **Foldable for Storage:** Compact and easy to store or transport when not in use.
- **Easy to Clean:** Wipeable surface for quick and hygienic maintenance.
- **Compatible with Cura1 Economy Falls Monitor:** Ensures seamless monitoring and alerts.

ENHANCED SAFETY FOR PATIENTS AND PEACE OF MIND FOR CARERS

The Cura1 Foldable Crash Mat with Sensor offers caregivers and families added peace of mind by providing immediate alerts when a patient or loved one attempts to exit the bed. Its combination of fall protection cushioning and alert functionality makes it a dual-purpose safety accessory in any care environment.

SUITABLE FOR:

- Home care settings
- Aged care facilities
- Hospitals and rehabilitation centres
