PRODUCT DESCRIPTION

The iCare Reform Low Back Support is designed to relieve lower back pressure and improve posture. Its ergonomic shape naturally contours to your spine, supporting the lower back while helping

maintain proper alignment. You can use it in any chair or seat, and the included elastic strap keeps it securely in place.

KEY FEATURES

- Ergonomic design – contours to the back with a knuckle bone two-way curve and wider base section to reduce lower back pressure
- Charcoal-infused ActiveX™ core – high-density material that adapts to your body, controls temperature, and relieves pressure
- Medium feel rating – firm yet comfortable for extended use
- Versatile use – suitable for office chairs, home seating, or recliners; elastic strap ensures stability
- Durable, washable cover – 100% recycled polyester outer cover with mesh inner lining; machine washable for easy care

EVERYDAY BENEFITS

The iCare Reform Low Back Support Cushion reduces pressure points and redistributes weight for enhanced comfort. Its charcoal-infused ActiveX™ core adapts to your back, providing consistent support while helping maintain optimal posture.

Use this cushion at home, in the office, or in clinical settings to alleviate lower back discomfort, prevent slouching, and improve overall alignment. The cushion's ergonomic shape supports the spine and encourages correct posture, making it ideal for long periods of sitting.

Its lightweight design and elastic strap allow for easy adjustment, ensuring the cushion stays in place wherever it is needed. The washable cover makes cleaning simple, providing long-lasting hygiene and usability.

WHY CHOOSE THE ICARE REFORM LOW BACK SUPPORT?

The iCare Reform Low Back Support combines ergonomic design with high-density charcoal ActiveX™ material for superior comfort and posture support. It effectively relieves lower back pressure, promotes proper spinal alignment, and is suitable for everyday use. The washable cover adds convenience, making this cushion a practical choice for home, office, or clinical use.
