PRODUCT DESCRIPTION

The Invacare Pegasus Pro Mobility Scooter is the luxury model of the Pegasus family, the perfect option for those who demand reliability and added performance. The Pegasus Pro is equipped with large 12" tires and has the ability to navigate a wide variety of surfaces and terrains. The Superior Wishbone Suspension System makes every ride a soft, smooth and enjoyable one. Perfect for anyone that uses their scooter regularly and long distance

The safety features on the Invacare Pegasus Pro are second to none and make this scooter the perfect performer. Its ergonomically designed Steering System is exceptionally responsive and super easy to control. The Pegasus Metro also features an electronic speed reduction system that automatically reduces speed when turning. Its Immediate Braking Lever above the right handle enables you to come to a complete stop in an instant. The bright brake lights on the rear bumper will alert those around you that you are braking or stopping. An additional safety feature on the Pegasus Pro is the added protection guard for the electronics and motor. This protects against water and corrosion of the vital workings of the Mobility Scooter. It will prevent any malfunction that may occur from exposure to the weather.

Another bonus of the Pegasus Pro is its digital display that allows you to preset your scooter to your desired settings. The digital display features a speedometer, monitors the kilometers you have traveled and alerts when a service is due.

The comfortable padded seat can rotate left and right with its swivel base, the padded armrests flip up to make getting in and out of the scooter an easier task. Especially if you are sliding into the seat from a walker or a wheelchair.

Like the Pegasus Metro, the Pegasus Pro also features 5 different interchangeable colour panels to enable you to select and change the look of your Mobility Scooter easily.

The Pegasus Pro also features:

- Large bright inbuilt front head light
- Two front and rear inbuilt signal lights (indicators)
- Two rear inbuilt brake lights
- Turtle speed override which will limit the scooter to 6km
- Horn
- Colour coded battery life indicator
- Front basket

and much more.

An added bonus for all scooters purchased from Mobility and Wellness is our life time club membership free of charge. We keep all your scooter records on file and alert you when services are due, point of call should any repairs be required, inform you when new accessorises are available plus any other relevant information that may be useful. We also keep records of your scooter type, frame and motor numbers plus any accessorises you may have purchased. This is should your scooter require an insurance claim for theft or damage, simply contact us and we can send all the required documents

A bonus flag pole, rear mirrors and hi visibility safety vest are all included with every scooter.
