12 months

PRODUCT DESCRIPTION

The SupaScoota Sumo is a groundbreaking portable mobility scooter designed for users who need high load capacity without sacrificing portability. With an approved load rating of 200kg, it delivers unmatched performance, reliability, and comfort for all riders.

Engineered by Eurogreen, the Sumo offers exceptional comfort comparable to full-sized road scooters, while maintaining excellent manoeuvrability in confined spaces. Its innovative design raises the benchmark for heavy-duty portable scooters, providing a safe, reliable, and affordable transport solution for those requiring substantial carrying capacity.

Key Features

- High load capacity – 185kg approved
- Lightweight, portable design
- Outstanding manoeuvrability in confined spaces
- Exceptional comfort for all passenger weights
- Reliable performance on various terrains
- Easy transport and storage
- Innovative design sets new benchmark for heavy-duty scooters

Frequently Asked Questions

Q: What is the maximum load capacity of the SupaScoota Sumo?
A: It has an approved load rating of 185kg.

Q: Is it suitable for confined indoor spaces?
A: Yes. The Sumo’s design allows excellent manoeuvrability even in tight spaces.

Q: Can it handle long-distance travel?
A: Yes. The scooter is designed for high-capacity performance and reliable operation over extended use.

Q: Is it comfortable for heavier passengers?
A: Absolutely. The SupaScoota Sumo provides comfort comparable to any road-class scooter regardless of passenger weight.

Why Choose the SupaScoota Sumo?

The SupaScoota Sumo is ideal for users who need high-capacity mobility without compromising portability. Its innovative design, 200kg load rating, and exceptional comfort make it perfect for both indoor and outdoor use. Whether for daily commuting, long-distance travel, or navigating tight spaces, the Sumo offers the performance, reliability, and manoeuvrability that heavy-duty scooter users demand.
