PRODUCT DESCRIPTION

Vulkan Wrist Splint - Short provides immobilisation and stabilisation of the wrist. Stretch elastic

material for excellent compression and anatomically-contoured aluminium palmar splint that can be removed and contoured by therapist.

Features:

- Flexible compression offers support and improves proprioception
- Move the palmar splint to change fit from right to left hand
- 70% nylon/30% latex. Cold water wash; air dry only

HOW TO WEAR

Open splint and position wrist on palmar stay. Close tabs and wrap strap around wrist to secure. Tabs fasten at the top or bottom depending on right or left fit.

APPLICATIONS

Ideal for treatment of carpal tunnel syndrome, rheumatoid arthritis, radial nerve palsy and wrist instability.
