## PRODUCT DESCRIPTION

The 'Wonder Sheet Original' is an effective therapeutic tool because it can make your mobility in bed

easier.

The satin panel, which is 90cm long, sits under your shoulders, back and hips and allows you to slide your hips over more easily without having to lift them. It's also particularly helpful when getting in and out of bed because you can pivot on your hips without worrying about the friction from normal cotton sheets.

This unique design creatively combines 'Glossy Charmeuse' satin and a 50/50 blend cotton/polyester fabric which is beautiful to sleep on while being very durable.

**Please Note: The 35cm depths are suitable for mattresses up to 30cm. And the 45cm depths are suitable for mattresses up to 40 cm deep.**

- The reduced friction lowers the risk of skin breakdown causing pressure ulcers, whilst assists with increasing the ease of movement and independent re-positioning.
- Enhances independence while reducing injuries, improving the quality of life.
- It can work in conjunction with other equipment already in place, such as a bed pole.
- Reduced risk of back (and other MSK) injuries to carers. It make re-positioning easier requiring much less effort.
